## Summary

**Lead UX/UI Designer** with 6+ years of experience designing and scaling complex, mission-critical digital products across enterprise, government, and global technology environments. Specialized in system-level UX, large-scale design systems, and data-intensive platforms serving thousands to millions of users. Proven ability to lead design initiatives end-to-end, influence product strategy, and deliver reliable, scalable solutions in high-complexity ecosystems.

## Core Design & Product Expertise

- Product Design & UX Strategy
- Large-Scale Design Systems
- Enterprise & Government Platforms
- Data-Heavy & Operational Interfaces
- End-to-End Product Lifecycle Ownership
- UX Architecture & Information Design
- Cross-Functional Leadership
- Design Process Optimization
- Accessibility & Usability at Scale
- Design Leadership & Process Optimization

## Technical Skills / Tools

→ **Design & Prototyping:**

Figma

FigJam

Adobe Photoshop

Illustrator

XD

After Effects

Sketch

Axure

ProtoPie

Spline

Lottie Animation

Zeplin

→ **Web & No-Code:**

Webflow

Figma Sites

→ **Frontend Knowledge:**

HTML

CSS

JavaScript

→ **Web3 & DeFi:**

dApps UX

DeFi Tools

Crypto Wallets

Blockchain-based Products

→ **AI & Productivity:**

AI-powered Design & Research Tools

---

## Professional Experience

### Design Lead / Lead UX/UI Designer

D Ventures

Jul 2023 - Present

Helsinki, Finland (remote)

Led design strategy & execution across enterprise, startup, & Web3 projects, progressing from Senior Designer to Design Lead role.

- Led UX/UI strategy and execution for enterprise-grade and platform-level products, including internal systems, consumer-facing applications, and complex operational tools.
- Designed scalable design systems adopted across multiple products, reducing design debt by 40% and improving cross-team consistency.
- Owned UX architecture for products operating in high-complexity, data-driven environments, ensuring clarity, performance, and long-term maintainability.
- Partnered closely with product managers, engineers, and stakeholders to align UX decisions with business and technical constraints.
- Mentored designers and elevated overall design maturity across teams.

---

### UX/UI Designer (Mid-Level)

NIX United

Jan 2021 - Jul 2023

United States (Global Delivery)

Worked within a 3,000+ employee international company delivering enterprise and government-level digital solutions.

- Designed enterprise and government platforms used in education and industrial sectors.
- Worked on an Australian government education system, ensuring usability, accessibility, and scalability for large user bases.
- Improved internal UX workflows and documentation, increasing delivery efficiency by 20%.
- Represented the design team at professional conferences and internal knowledge-sharing sessions.
- Designed internal operational software for a U.S.-based agricultural enterprise, improving monitoring efficiency and decision-making accuracy.

## UX/UI Designer (Freelance)

 Upwork

 Jan 2020 - Jan 2021

 Global Clients

Built foundational experience working with international clients across diverse industries.

- Delivered UX/UI design for websites, mobile apps, desktop applications, landing pages, brand books, and full visual identities.
  - Gained hands-on experience in full-cycle client communication, requirement gathering, and iterative design delivery.
  - Successfully completed 100+ freelance projects, maintaining high client satisfaction and long-term partnerships.
  - Worked with clients worldwide across industries ranging from private aviation and drone control systems to e-commerce and marketing platforms.
- 

## Education

### Master's Degree in Cybersecurity

 Graduated: 2026

 V. N. Karazin Kharkiv National University

- Strong understanding of **security, privacy, and risk**, directly applied to Web3 and financial UX design.
  - Participation in cybersecurity conferences and professional events.
- 

## Certifications & Professional Development

★ UX/UI Design Certifications

★ Frontend Development Certifications (HTML, CSS, JavaScript)

★ Continuous professional education in Web3, DeFi, and emerging technologies

★ Cybersecurity Certifications

---

## Languages

 **English** Advanced / Fluent (direct client communication)

 **Ukrainian / Russian** Native

---

## Additional Strengths

- Strong product and business mindset
- Exceptional ability to translate complex systems into intuitive user experiences
- Confident communicator capable of working with executives, engineers, and non-technical stakeholders
- Proven ability to operate in high-responsibility, high-complexity environments
